Objective

To gain practical experience in a professional environment where I can apply my academic knowledge and enhance my skills. I aim to contribute effectively to team goals and grow as a learner.

Education

Bachelor of technology in Artificial Intelligence and Data Science

2023 - 2027

Sri Venkateswara College of Engineering CGPA :

7.54

Bharathi Matriculation Higher Secondary School

2023

Percentage: 92.5%

Technical Skills

- Programming Languages: Python, Java, C
 - Front End Development: HTML, CSS
 - Data Analytics: Power BI, MySQL
-

Projects

Sign Language to Speech

- Developed a real-time Sign Language to Speech accessibility system using computer vision and edge AI.
- Built a lightweight browser extension that integrates directly with Zoom, Google Meet, and WhatsApp Web for zero-install communication.
- Implemented on-device gesture recognition with MediaPipe and TensorFlow to ensure low latency, privacy, and accurate speech output.

IoT-Based Smart Lighting System

- Designed an Arduino-based lighting system using LDR sensors and microcontrollers to automatically adjust brightness based on ambient light conditions.
 - Optimized energy consumption through embedded C/C++ programming, demonstrating effective hardware-software integration.
-

Workshops & Training

AR and VR Workshop

- Gained hands-on exposure to the fundamentals of Augmented and Virtual Reality, including immersive environment design and real-world applications.

CTF (Capture The Flag) Workshop

- Learned practical cybersecurity concepts, including problem-solving techniques, vulnerability analysis, and basic ethical hacking skills.
-

Work Experience

Web Development Intern – 3 Skills

- Developed and maintained responsive web pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and smooth user experience.
- Collaborated on UI/UX improvements, bug fixes, and performance optimization; integrated REST APIs, used Git/GitHub for version control, and followed clean coding best practices.
