PROFESSIONAL SUMMARY

Third-year B.Tech student in Artificial Intelligence and Data Science at Sri Venkateswara College of Engineering (SVCE), Chennai. Data Analytics and Machine Learning enthusiast with hands-on experience in building structured data pipelines, interactive dashboards, and AI-driven web platforms. Recognized hackathon winner with a proven track record in technical paper presentations, research synthesis, and cross-functional team leadership.

EDUCATION

Sri Venkateswara College of Engineering (SVCE) — *B.Tech in Artificial Intelligence & Data Science* Expected May 2027
CGPA: 6.1 / 10.0

Bethany Higher Secondary School — *Higher Secondary Education (Class 12)* 2023

PROFESSIONAL EXPERIENCE

R.Tech — *Data Analyst Intern* May 2025 – July 2025

- Processed, cleaned, and structured raw multi-source datasets using Python and Advanced Excel, improving data preparation efficiency by 25% for operational reporting.
- Engineered automated visual analytics pipelines and executive-level interactive performance dashboards using Power BI.
- Collaborated with technical leads to translate complex dataset insights into strategic business summaries and key performance metrics.

PROJECTS

E-Waste Management Platform | *Python, Web Technologies, Data Analytics, MySQL*

- Engineered an end-to-end web application facilitating systematic e-waste collection, vendor tracking, and disposal logistics.
- Integrated analytical tracking components to monitor operational collection metrics, vendor fulfillment rates, and environmental impact data.
- Designed intuitive search and automated scheduling workflows for local users to submit obsolete electronic hardware efficiently.

Predictive Analytics & Automated ML Pipeline | *Python, Scikit-Learn, Pandas, Power BI*

- Developed robust machine learning classification and regression models to evaluate tabular feature datasets.
- Built custom data visualization reporting templates in Power BI, seamlessly connected to Python data transformation scripts.

ACHIEVEMENTS & COMPETITIONS

- 1st Prize – ACM Reverse Pitch Competition:** Secured top position in the Association for Computing Machinery (ACM) event for pitching innovative solution frameworks to complex technical problem statements.
- Runner-Up – Paper Presentation (SVCE Symposium):** Awarded 2nd place at the SVCE National Level Technical Symposium for authoring and presenting research insights on AI and data system implementations.

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) Certified Associate** — Oracle
- Power BI Data Analyst Certification** — Infosys Springboard
- Machine Learning Specialization** — Coursera

TECHNICAL & INTERPERSONAL SKILLS

- **Programming Languages:** Python, C, SQL
- **Data Analytics & ML:** Power BI, Advanced Excel, Pandas, NumPy, Scikit-Learn, Matplotlib
- **Cloud & Tools:** Oracle Cloud Infrastructure (OCI), Git, MySQL
- **Soft Skills:** Team Collaboration, Technical Public Speaking, Adaptability, Problem-Solving
