Career Objective

Pre-final year B.Tech student specializing in Artificial Intelligence & Data Science with hands-on experience in data analytics, machine learning, and full-stack development. Actively seeking internship opportunities where I can apply ML-driven insights and scalable backend systems to solve real-world problems.

Academic Qualification

B.Tech - Artificial Intelligence & Data Science

OCT 2023 - MAY 2027

Sri Venkateswara College of Engineering | CGPA: 8.69

Senior Secondary (XII), CBSE

APR 2022 - MAY 2023

Gurukshetra Public School | Percentage: 95.2% | School Rank: I

Experience

TANSAM, Chennai - Data Analyst Intern

JUL 2025 - AUG 2025

- Executed multiple **data analytics projects**, performing **data preprocessing**, **exploratory data analysis (EDA)**, and **predictive modelling** on real-world datasets.
 - Leveraged **Python (Pandas, NumPy, Matplotlib, Seaborn)** for automation and analytics, **PostgreSQL** for structured data management, and **Power BI** for building **interactive dashboards** and visual insights.
-

Skills

- Languages:** Python, C, Java, HTML, CSS
 - Frameworks:** Flask, SQLAlchemy, FastAPI, LangChain, TensorFlow
 - Libraries:** Pandas, NumPy, Scikit-learn, BeautifulSoup, Selenium
 - Tools:** Git, Power BI, Excel
 - Database:** MySQL, PostgreSQL, SQLite
-

Projects

Agam | Python, FastAPI, BERT, Supabase, TensorFlow

- Built a smart journaling platform that detects cognitive distortions in user text and provides automated reframing suggestions while enabling therapist-client connectivity.
- Fine-tuned and deployed a **BERT NLP model** on **20,000+ labeled samples** using **Hugging Face** for real-time text analysis.
- Developed a **FastAPI backend with Supabase authentication and storage**, integrating research-backed CBT techniques to help users structure thoughts and reduce mental clutter.

Readable - A Personalised Learning System for Dyslexic Students | FastAPI, PyTorch, PostgreSQL, Docker, Unity, Vuforia

- Designed and trained a **multimodal residual neural network** combining gaze patterns and speech features to identify learner behavior and dynamically adapt learning experiences.
- Built an **augmented reality** learning application in Unity with Vuforia, enabling interactive multisensory educational content to improve engagement and comprehension.
- Integrated **GazePointer** API for gaze tracking and **Whisper** API for speech-to-text processing to support accessibility-focused interaction and feedback analysis.

Leetcode Cheating Detector | Python, BeautifulSoup, Selenium, Pandas, Flask, Scikit-learn

- Built an **automated data analytics pipeline** that detects anomalous contest activity using **web scraping**, **data preprocessing**, and **machine learning**.

- Utilised **Selenium** and **BeautifulSoup** for large-scale data extraction, **Pandas** for pattern analysis, and **Scikit-learn anomaly detection models** to flag suspicious user behaviour.
-

Co-curricular Activities

Secretary, Association of Computer Engineers, SVCE

SEP 2025 - PRESENT

- Led the organisation of **technical competitions, workshops, and seminars** to promote peer learning.
 - Increased **student engagement and participation** through regular **coding sessions and project showcases**.
-

Certifications

NPTEL - Business Intelligence & Analytics

- Secured the top 2% toppers list by completing the NPTEL course on Business Intelligence and Analytics (87%).
-

Achievements

- **Analytics Showdown 4.0**, Datathon - **WINNER**
- **Makeathon 7.0**, Hackathon - **RUNNER UP**
- NPTEL **Top 2%** – Business Intelligence & Analytics.
- Rated **1648 on LeetCode** with consistent contest participation.
- **School Rank 1 – CBSE Class XII (95.2%)**.
