

SANTHOSH AG

SOFTWARE ENGINEER

Chennai, Tamil Nadu, India • santhoshag5102006@gmail.com • +91 9363632691

PROFESSIONAL SUMMARY

Motivated and detail-oriented Artificial Intelligence & Data Science undergraduate at SVCE with strong fundamentals in software engineering, algorithms, and full-stack development. Experienced in designing intuitive, responsive user interfaces in Figma and translating them into robust web applications, alongside implementing machine learning models and data pipelines for real-world analytical tasks.

ACADEMIC & ENGINEERING PROJECTS

Smart Predictive Analytics & Classification System – AI & Data Science

2025 – 2026

- **Project Overview:** Developed an end-to-end data processing and prediction pipeline to classify complex structured datasets.
- **Tech Stack:** Python, Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn.
- **Architecture & Implementation:** Automated exploratory data analysis (EDA), data cleaning, feature scaling, and machine learning model training.
- **Results & Impact:** Achieved high classification performance through hyperparameter tuning and model evaluation using ROC-AUC and confusion matrices.

Responsive Web Dashboard & User Portal – Full-Stack / UI Engineering

2025

- **Project Overview:** Designed and developed a modular, responsive web portal for seamless data visualization and user interaction.
- **Tech Stack:** HTML5, CSS3, JavaScript, Figma, Python, Git.
- **Architecture & Design:** Created high-fidelity design systems and interactive prototypes in Figma, translating them directly into accessible, semantic front-end components.
- **State Management & APIs:** Managed responsive UI component state, integrated REST APIs, and structured the codebase using standard Git version control.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS3, SQL

AI & Data Science: Machine Learning Fundamentals, Pandas, NumPy, Scikit-Learn, Data Analysis

UI/UX & Web Design: Figma, UI/UX Wireframing, Responsive Design, Component Architecture

Tools & Environments: Git, GitHub, VS Code, REST APIs, Linux/Unix Basics

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence & Data Science

Chennai, India

Sri Venkateswara College of Engineering (SVCE)

- **Core Focus:** Artificial Intelligence, Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Systems.
- **Relevant Coursework:** Machine Learning, Web Technologies, Distributed Problem Solving, Software Engineering.

HONORS & ACHIEVEMENTS

- **Winning Team Member:** Collegiate Hackathons – Collaborated in multidisciplinary teams to develop and deploy working software MVPs within 24–48 hour sprints.
- **UI/UX & Front-End Contributor:** Designed wireframes, created interactive prototypes, and implemented responsive client-side components for hackathon deliverables.
