CAREER OBJECTIVE:

Motivated and passionate Full Stack Developer with strong knowledge of Java, Spring Boot, React.js, MySQL, PostgreSQL, and REST APIs. Experienced in developing secure, scalable web applications using modern technologies such as Spring Security and JWT Authentication. Eager to apply my technical skills, problem-solving abilities, and continuous learning mindset to build impactful software solutions while contributing effectively to a dynamic organization.

EDUCATION:

Sri Venkateswara College of Engineering (SVCE), Sriperumbudur

Bachelor of Engineering (B.E.) – Computer Science and Engineering

TECHNICAL SKILLS:

Programming Languages: Java ,JavaScript ,C ,C++,HTML5 ,CSS3 ,SQL

Frameworks & Technologies: Spring Boot ,Spring Security ,React.js ,Vite ,Bootstrap ,Tailwind CSS ,Spring Data JPA (Hibernate) ,REST APIs ,JWT Authentication ,WebSocket ,STOMP ,Maven

Databases: MySQL ,PostgreSQL

Tools: Git ,GitHub ,Visual Studio Code ,IntelliJ IDEA ,Postman ,MySQL Workbench

PROJECTS:

Hospital Appointment Management System

- Developed a full-stack hospital appointment management application using React.js and Spring Boot.
- Implemented secure user authentication using Spring Security and JWT Authentication.
- Designed REST APIs for appointment booking and management.
- Integrated MySQL database for storing user and appointment information.

Employee Management System

- Developed a role-based Employee Management System using React.js, Spring Boot, and MySQL.
- Implemented CRUD operations for employee records.
- Secured the application using Spring Security and JWT Authentication.
- Designed RESTful APIs and integrated frontend with backend services.

Local Store E-Commerce Management System

- Developed a complete e-commerce platform with separate Admin and Customer modules.
- Implemented product management, user authentication, and order management.
- Built using React.js, Spring Boot, Spring Security, JWT Authentication, and MySQL.
- Created responsive user interfaces with Bootstrap.

Real-Time Chat Application

- Developed a real-time chat application using React.js and Spring Boot.
- Implemented instant messaging using WebSocket and STOMP protocol.
- Secured the application using JWT Authentication.
- Integrated MySQL database for user management and chat functionality.

CERTIFICATIONS:

- Full Stack Web Development Internship – Prodigy InfoTech
- Cybersecurity Workshop Participation Certificate

ACHIEVEMENTS:

- Participated in 2 National-Level Hackathons.
- Participated in a Cybersecurity Workshop and gained knowledge of cybersecurity fundamentals and best security practices.
- Successfully developed multiple full-stack web applications using Java, Spring Boot, React.js, and MySQL.
- Strong understanding of REST API development, authentication, and secure web application design.
