

YESHWANTH V

B.E. Computer Science and Engineering (CSE) — 2nd Year, SVCE
2025cs0883@svce.ac.in | +91 79043 62352

PROFILE

Second-year CSE student combining hands-on data-handling skills (SQL, Excel) with a strong interest in marketing and business strategy. Comfortable translating raw data into decisions, and enjoy the strategic side of team-based competitions — a natural fit for DPL's auction-and-team format, where both technical output and game strategy matter.

SKILLS

- Data Handling: SQL / MySQL fundamentals — writing queries, filtering, joins, basic database structuring
- MS Excel: data cleaning, formulas, sorting/filtering, pivot tables for quick analysis
- Business & Marketing: market/consumer thinking, positioning, and translating numbers into a story or strategy
- Soft Skills: quick learner, team collaboration, adaptable under time pressure — useful in fixture-based challenges

WHY I'M A GOOD AUCTION PICK

- Dual strength: can pull and clean data (SQL/Excel) AND frame the business 'so what' — most participants bring only one side
- Strategic mindset from marketing interest: good at reading a problem statement and prioritizing what actually matters, not just running numbers
- Actively upskilling — currently building on SQL and data fundamentals specifically to contribute from day one
- Reliable team player: shows up, communicates, and adapts to whatever role the team needs — data cleaner, analyst, or strategist

EDUCATION

Sri Venkateswara College of Engineering (SVCE)

B.E. Computer Science and Engineering — 2nd Year (2025 batch)

INTERESTS

Data-driven decision making, business strategy & marketing, competitive/team-based problem solving.
